As you can see, we've added the shows to the class list. We're normally out of the shop for a day or two on either side of these dates for setup and travelling. Remember though that the shop is still open when we are away for you to stock up with quilting goodness!

Or why not come to a show and join in on one of our workshops. Typical workshops include learning how to print photos onto Fabric from Elwin, incorporating them into a memory quilt with Gai or making a 'wonky squares' cushion top in the Creative Zone if you are between 10 and 18 years old.

# TECHNIQUE CLASSES

Technique classes are perfect if you have a bunch of projects in your head that you want to attempt, but don't quite know how to take the next step. For beginners, choose between the Intro to Patchwork class that is all hand piecing and quilting, or the one day class that covers the basics of machine piecing. If you want to move onto Machine quilting there's a class for that too! Quilmakers is designed for intermediate quilters wanting a little assistance to continue with their projects, and is a great social occasion too.

## **Introduction to Patchwork \$65 ✂**

You won't be intimidated by the terms or techniques of patchwork and quilting after this course. Each week you learn different techniques to construct patchwork blocks, learning more about colour confidence along the way too. Hand quilting will also be covered, allowing you to put your finished blocks into a lap quilt or cushions. All hand sewing, no sewing machine is required for this course.

**Wednesday 10am to 1pm (4 weeks)**

30 August, 6 September, 13 September, 4 October

## **Beginner Machine Piecing \$40 ✂**

Learn all the tips of the machine patchwork world including an introduction to rotary cutting. Then you will machine piece blocks to incorporate into a project. This is a great follow on from the Introduction to Patchwork class, or for people who are only interested in patchwork by machine.

**Wednesday 10am to 4pm**

22 November

## **Quilmakers \$10 per session ✂**

Come along to receive advice and help on finishing off projects, starting new ones or simply to be inspired! Attend every week, or only on a casual basis—it's up to you! Classes are unstructured so you're only limited by what you're willing to attempt...

This is the ideal class for graduates of the Introduction to Patchwork class to keep expanding their Patchwork knowledge base.

**Wednesdays 6pm to 9pm**

**Fridays 10am to 1pm**

NB. Classes do not run during shows (see dates on first page), or during school holidays

## **Machine Quilting \$40 ✂✂**

Do you have lots of unquilted quilt tops in the cupboard? Too timid to begin quilting them on the machine, or keen to learn some more adventurous techniques? This class will give you some courage, new ideas and practical experience to free up your machine creativity.

**Saturday 10am to 4pm**

9 December

# MAKE A QUILT

## Memory Quilt \$100 ✂ - ✂✂

See how vibrant the colours of even old photos can be with some basic enhancements. Choose the size of your photos for the quilt before you leave on Saturday. We'll have them printed onto fabric for you by Sunday morning, ready to begin piecing your quilt top on Sunday.

Fabric sheets (for photos) are available to class participants for \$6.00/sheet. The cost of printing onto the sheets is included in the class fee. Most participants use between 5 and 15 sheets for their quilt, depending on the number and size of photos used. All photos must be submitted before the class. ## Anne van der Kley workshop

### Back to Basics—Thinking Beyond The Loopers

Let's start at the beginning... sounds like a song I know and, yes, it is a very good place to start. The overlocker is a great textile art tool, but like any equipment, understanding the 'bread and butter basics' is essential before starting on the fancy 'jam and cream' options.

This 2 day workshop takes you back to basics and then beyond:

Day 1: Anne's method of teaching is designed to ensure you are the one in control and can understand the what, where and why of features and functions of your overlocker.

In the afternoon, the play days begin so that we can start to look at a bit more creativity.

Day 2: A brief refresher and then some creative edges and fun techniques to get you ready for Christmas gift wrapping and festive decorations and embellishments.

**N.B. Anne van der Kley's workshop must be paid in full at time of booking. WEEKEND WORKSHOP \$150**

**Saturday and Sunday 10am to 4pm**

18 and 19 November
